

ALASKA, YOUR SHIP IS FINALLY COMING IN

INTRODUCING TOTE--A NEW CONCEPT IN WATERBORNE SHIPPING FOR THE 49TH STATE

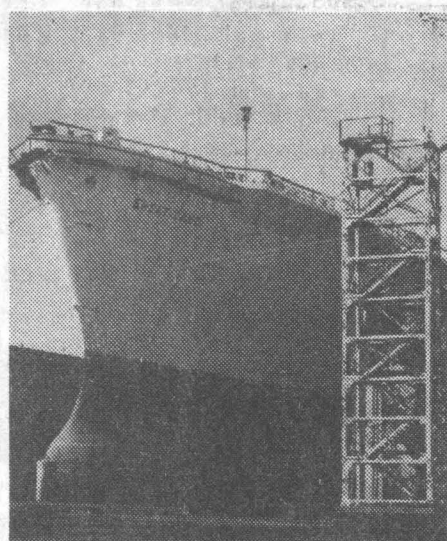

THE NEWEST, FASTEST, LARGEST SHIP...AND MOST EFFICIENT OCEAN TRANS- PORTATION BETWEEN SEATTLE AND ALASKA

Totem Ocean Trailer Express (TOTE) is proud to announce that it will begin regularly scheduled trailership deliveries between Seattle and Alaska in August.

THE S.S. GREAT LAND COMES TO THE GREAT LAND

TOTE's ship, the 790 foot S.S. Great Land, is the largest and fastest trailership ever built. It is capable of carrying the equivalent of 390 40-foot trailers and 126 automobiles. It's the only ship ever designed and built specifically with Alaskan shipping needs in mind.

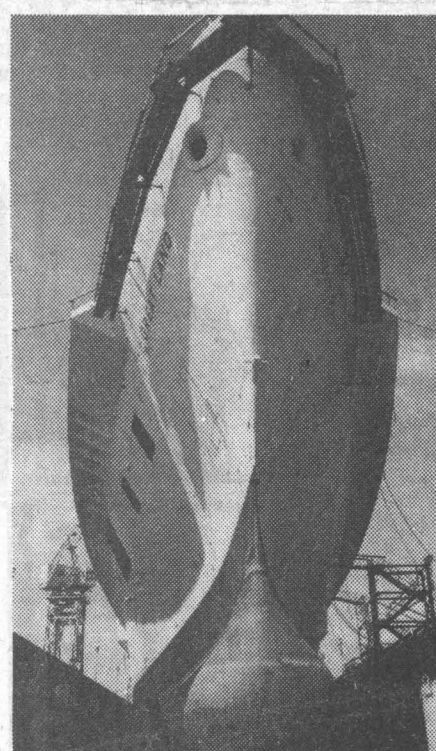

RAH, RAH FOR RO/RO

The S.S. Great Land has "Roll On/Roll Off" capabilities, which are unique to Alaska. RO/RO, as it's commonly called, allows cargo to be driven on and off the ship, reducing cargo handling, cargo transfer and repacking. Virtually any highway trailer or any piece of cargo capable of being driven on the road is simply driven on to the ship.

IF SPEED IS WHAT YOU NEED

We all know that one of the biggest problems with shipping to Alaska is speed (or the lack of it). TOTE cuts delivery time to a minimum. Because of its size it can carry more. And because of RO/RO, unloading time for a full ship unloading and reloading is down to about 12 hours.

GIVE TOTE A TRY

TOTE is here to serve the Alaskan shipper. Offering services never before offered. Providing additional jobs and revenue for Alaska. Giving you the shipping service you demand.

All systems are "go" for start-up this August to bring Alaskans this modern, new service. Except for a final agreement for assured berthing space at the Port of Anchorage, similar to that held by our competitor Sea-Land. But negotiation for this berthing space is still unresolved at this time.
